PRACTICE AREA

Corporate

The Wallace Saunders Corporate Practice group focuses on three primary areas: entity formation, operations guidance and assisting in the sale of your business.

Accurate entity formation can have a major impact on your liability exposure as well as substantial tax consequences. It's important to have appropriate control features in the establishing documents for your entity to ensure your ability to run your company in the manner you see fit.

Our attorneys can provide a wide range of guidance to you on various legal issues that can arise in operating your company. Real estate contracts and leases should be reviewed before they are signed, and we can assist with employment issues as well. Contracts with clients or suppliers should also be reviewed to make sure they provide the best protection and advantages available.

Finally, when it comes time to sell your company, we can help you structure the sale to maximize your take-home profits and minimize tax obligations.

Let Wallace Saunders attorneys help you achieve your business goals in areas such as:

- Buy-sell agreements
- Contracts
- Corporate mergers
- Entity creation
- Risk management
